

AcrobatEdit Test Document

Evaluating Layout-Preserving PDF Text Editing

This PDF document is created to test layout-preserving inline text editing features. Our PDF editor detects font faces, sizes, colors, and line alignments, allowing edits to happen seamlessly. You can replace words without shifting the surrounding text.

This sentence is rendered in Times-BoldItalic with a custom red color.

```
class FontEngine:
    def __init__(self, cache_dir):
        self.cache_dir = cache_dir
```

Embedded Shape Block

Testing deletions and covers.

Redaction removes the text objects
completely from the file structures.

Page Two: Page Operations & Images

On this page, you can test image deletion, moving, and replacement actions.
